HAPI 2024 Resource Guide Welcome: 35th Anniversary

By Jon M. Young, Executive Director

This year is the 35th anniversary of the Hawaii Asphalt Paving Industry (HAPI); it is time to pause and reflect on the past 5 years since our last anniversary issue.

Two indications of our continuous growth are the increase in our newsletter circulation and our membership. Since July 2019, our newsletter circulation has increased to 2,780 from 1,960. Our membership has also increased. There are now 9 active members, up from 7 members five years ago. Active members are producers and binder suppliers. Our sustaining members, those that do lay down or operate a quarry, remain the same at 8 members. Our associate members (consultants, suppliers, etc.) grew to 59 from 48 members.

To spread the word about careers in the asphalt industry and

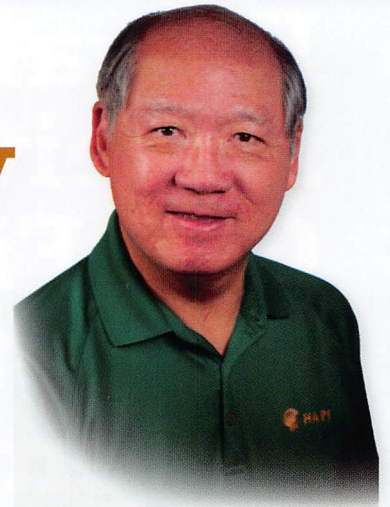

civil engineering, HAPI has been participating in career events. Since 2017, HAPI has been participating in Hawaii Construction Career Days and University of Hawai'i College of Engineering Expo events. In 2023, three high schools (HS) launched their career events: Castle HS Career Exposure Fair, Leilehua HS College and Career Night, and Mililani HS College and Career Fair. HAPI has been a participant since their inception.

We have expanded our training opportunities with the rollout of our HAPI Shorts and our Annual Virtual Paving Conference. Our HAPI Shorts lunchtime lessons program started in July 2020. Currently, there are just under 40 different lessons that have been attended by just over 1,200 people. Our first paving conference was in 2021.

We are very appreciative of

our partnership with the Hawaii Local Technical Assistance Program (LTAP). In recent years, their support has made it possible for many government agency employees to attend these and other training events.

In 2024, we established the Hawai'i branch of the Women of Asphalt and Hawai'i received our first Perpetual Pavement Award. There is more about these two most recent accomplishments on the inside of this guide.

Hawai'i Receives Our First Perpetual Pavement Award

The Hawaii Department of Transportation (HDOT) has won a 2023 Perpetual Pavement Award: By Performance (PPA) for Route 550, Kōke'e Road on Kaua'i. It is the first PPA for the state of Hawai'i.

To qualify for this prestigious award, a pavement must be at least 35 years old and never experienced a structural failure. The average interval between the resurfacing of the winning pavement must be no less than 13 years. The pavement must demonstrate the characteristics expected from long-life asphalt pavements: excellence in design, quality in construction, and value for the traveling public. Engineers at the National Center for Asphalt Technology (NCAT) evaluated the nominations and validated the winners. Winning agencies are honored by their state asphalt pavement association and are presented with a plaque and an engraved crystal obelisk.

HEAVY EQUIPMENT LEASE PROGRAM

CURRENT DEALS ON 36-MONTH LEASE OPTIONS

Leasing Offers Available on ALL Roller Models!

LIGHT TANDEM ROLLERS

BW 900-50
starting at **\$359*** per mo.

BW 120 SL-5
starting at **\$829*** per mo.

BW 120 AD-5
starting at **\$1,029*** per mo.

BW 138 AD-5
starting at **\$1,199*** per mo.

HEAVY TANDEM ROLLERS

BW 141 AD-5 (60-inch)
starting at **\$2,199*** per mo.

BW 161 AD-5 (66-inch)
starting at **\$2,599*** per mo.

BW 190 AD-5 (78-inch)
starting at **\$2,799*** per mo.

BW 206 AD-5 (84-inch)
starting at **\$3,099*** per mo.

SINGLE DRUM ROLLERS

BW 124 DH-5
starting at **\$1,299*** per mo.

BW 145 D-5
starting at **\$1,599*** per mo.

BW 177 D-5
starting at **\$1,899*** per mo.

BW 211 D-5
starting at **\$2,399*** per mo.

BOMAG LEASE PROGRAM DETAILS

- Valid Oct. 1, 2024 - Apr. 30, 2025.
- Program available for select Light Tandem Rollers, Heavy Tandem Rollers, Single Drum Rollers, Pavers, Mills and Recycler/Stabilizers.
- No Trade-In Hassles: Return unit after 24, 36 or 48 months. Option to buy equipment after end of lease.
- Eligible products include 2022, 2023, 2024 and 2025 model year with less than 50 hours. Must be purchased from a BOMAG authorized dealer.
- Payment options shown are monthly and in arrears. Please contact your local dealer for quarterly, twice a year, or with skip payment options.
- Zero-Down-Lease: No down payment required.

Interested in Retail Financing Instead of a Lease?

**0% for 36 Months on ASPHALT PRODUCTS and
2.99% for 36 Months on SOIL PRODUCTS**

*Rates may vary based on machine configuration, retail price and other factors. Standard lease based on 800 hours per year but can be adjusted to meet customer needs. Offer subject to credit approval. Program is subject to change and BOMAG Americas, Inc. reserves the right to suspend the program without notice.

Contact your nearest Bacon Universal branch today!
Call **808-900-9900** or go online at **www.baconuniversal.com**.

Route 550, Waimea Canyon Drive or Kōke'e Road, is one of the most beautiful scenic routes in all of Hawaii. The road tours Waimea Canyon, otherwise known as "The Little Grand Canyon," and also known as "The Grand Canyon of the Pacific." The road services many tourists and locals through the mountainous terrain and ends at Kōke'e State Park where guests can camp, hike or just enjoy the

beautiful scenery.

Total Route length is more than 14 centerline miles. The award section is 2.0 Centerline Mile from Mile Post 6.72 to 8.72. As shown in the photo above, it is a two-lane road, with one lane in each direction. The Annual Average Daily Traffic (AADT) is 740 (<1% Trucks) and the estimated loading to date is 100,000 Equivalent Single Axle Load (ESALS).

In addition to the Perpetual by Performance award, there are also the following awards:

1. Perpetual by Design:

For newly designed and constructed asphalt roads built over new subgrade that meet perpetual design criteria.

2. Perpetual by Conversion:

For new asphalt roads constructed over an existing road that meets perpetual design criteria.

Scan the QR code at right to learn more about these awards, see

which states have received an award and learn about the 2022 award winners.

PURSU HIGHER STANDARDS

Cat® SDX Screed Plate System:

The Cat® SDX Screed Plate System is changing the standard for asphalt screeds. It is designed to create smoother surfaces, higher densities, faster screed plate changes and increased wear properties when compared to standard screed plates.

INCREASED DENSITY AND SMOOTHNESS

Contractors utilizing the Cat SDX Screed Plates have experienced higher and more consistent densities across the width of the mat. Contractors have also realized improvements in International Roughness Index (IRI) scores.

FASTER SCREED PLATE CHANGES

Machines equipped with the Cat SDX Screed Plate System utilize a hardware-free locking system that enables replacement in as little as 4 hours. This unique design minimizes the need for scheduled downtime.

LONGER WEAR LIFE

The Cat SDX Screed Plates are designed with cast chromium-alloy materials that provide consistent properties throughout the plates to increase wear life when compared to standard screed plate designs.

Contact Hawthorne Cat for more information.

"The Hawaii Department of Transportation Highways Division is delighted by the national recognition of Kōke'e Road on Kaua'i Island for a 2023 Perpetual Pavement Award," said Larry Dill, Highway Administrator for HDOT. "We are especially honored to be the first recipient of a PPA in Hawai'i."

Reed Ryan offered a national perspective: "As the executive director of the Asphalt Pavement Alliance (APA), I am delighted to honor the great state of Hawai'i with its first Perpetual Pavement Award. This honor underscores the state's commitment to constructing long-lasting, sustainable asphalt pavements that serve and connect the community. Hawai'i's long-standing dedication to excellence in pavement design and construction sets an example for others, and I am hopeful that this will be the first of many more Perpetual Pavement awards to follow. On behalf of the entire APA team, we congratu-

late the engineers and workers whose expertise and hard work have made this achievement possible.”

On behalf of the APA, HAPI presented the obelisk and plaque to HDOT at a ceremony on October 4, 2024, conducted at their Materials Testing & Research Branch facility at 2530 Likelike Highway. It was great Larry Dill was able to attend, as his office is in the HDOT Kauai District.

We hope this inaugural award will be the first of many for Hawai'i.

From left: Mel Chung, HDOT, Engineering Program Manager; Kyle Suzuki, HDOT, Engineer; Larry Dill, HDOT, Highway Administrator; Jon Young, HAPI Executive Director; John Romanowski (Jas. W. Glover, Ltd.), HAPI Director; Keola Goo, (Road Builders Corporation), HAPI Vice-President and Director

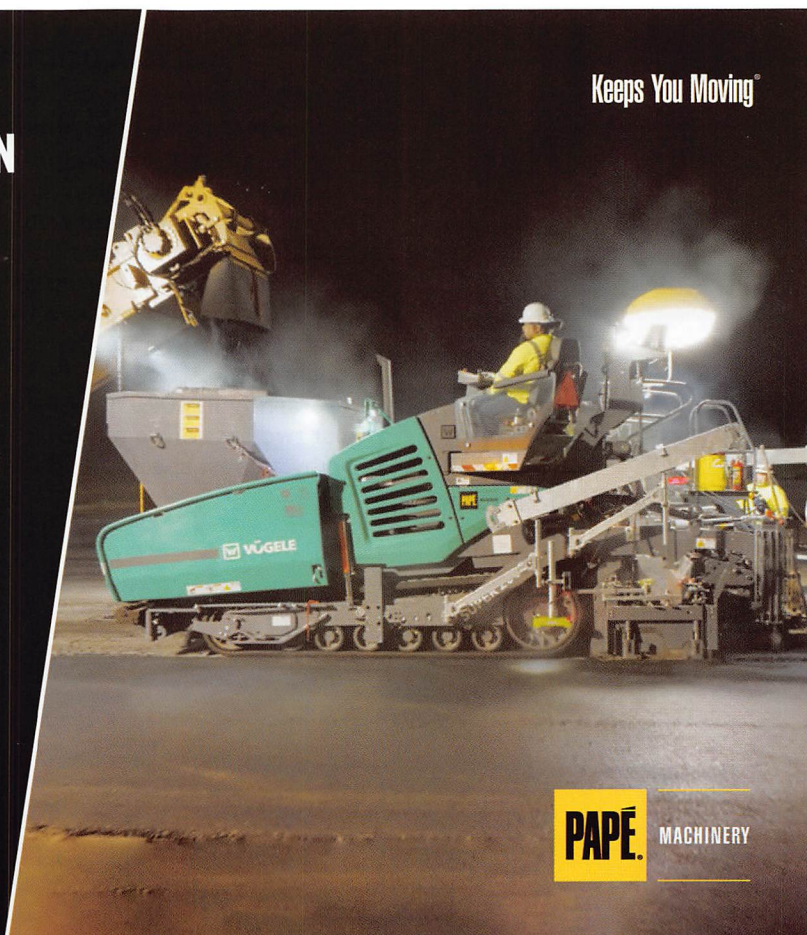

THE RIGHT PAVER FOR EVERY APPLICATION

Papé Machinery is proud to carry VÖGELE Highway Class pavers that are perfectly at home on highways and handling other demanding large-scale projects.

Immense paving widths and laydown rates, the possibility of using high compaction technology and plenty of power are all part of the package with these pavers.

HAPI Training UPDATE

We are happy to announce updates to three of our training programs: Use of Geosynthetics workshops, Best Practices for Asphalt Pavement workshops and HAPI Shorts Lunchtime Lessons.

Use of Geosynthetics Workshops

When the workshops started in 2015 as a joint effort by Tensar, Geotech Solutions, and HAPI, they were conducted in the morning. They started with breakfast and ended before noon. For the

past two years the workshops have started just after lunch and ended with a two-hour pau hana. The attendees liked this format and as such we planned to keep it for the foreseeable future.

Best Practices for Asphalt Pavement Workshops

The all-day Best Practices workshop was launched in 2015. In 2018, we added a half-day companion workshop that was conducted in various formats over the years. Starting in 2025, we plan to combine the two workshops into a single all-day workshop.

HAPI Shorts Lunchtime Lessons

Our HAPI Shorts lunchtime lessons fall into two categories; webinars presented by our executive director, and webinars presented by guest speakers. Since the inception of the program in July 2020, our goal was to have a session every Wednesday during lunchtime.

Starting in 2025, we plan to have just two sessions a month. One will be by a guest speaker and the other

will be by our executive director. There are currently fifteen topics presented by our executive director, with more to come. As such, it will not be possible to offer every topic during the year.

To alleviate this situation, government agencies and HAPI member companies can request any session presented by our executive director to be scheduled at their convenience.

No Other Changes

We do not anticipate any changes to our other training programs.

We will continue to offer our two-hour Understanding a Job Mix Formula Submittal in-person workshop in March and September.

A Talk Story session is conducted whenever there is an industry visitor in town. In 2024, there were two Talk Story sessions. One session with Phil Blankenship, who is the President of Blankenship Asphalt Tech and Training, PLLC, and the other session with Dr. Jhony Habbouche, Ph.D., P.E., Asphalt Institute's Regional Engineer (R.E.) covering the western region.

Training and certification workshops in Hawai'i can also be

E-mail: eci@ecihawaii.com

arranged when it is more economical than sending people to the mainland. The most recent certification workshop was conducted in July 2023. We contracted with the Asphalt Institute to bring their Mix Design Technology Certification (MDT) course to Hawaii for about twenty students. The course provides advanced technicians, designers, and engineers responsible for mix designs with a thorough understanding of the properties of the materials which compose asphalt mixtures, as well as the physical and mathematical processes involved in producing a successful asphalt mixture design. A certification examination followed the training.

HAPI member companies and government agencies can always request a presentation on a subject that is of interest to them. For example, at the request of the County of Hawai'i, Department of Public Works, HAPI did an informational webinar about polymer modified binders. HAPI member Bowers + Kubota Consulting wanted to learn more about specifying asphalt mixes and did so at an in-person presentation by HAPI at their North King Street office.

Please look for upcoming training opportunities in our monthly newsletter.

Looking for a job?

HAPI posts job opportunities with our members on our website. Our member companies include:

- Paving Contractors
- Pavement Treatment Contractors
- Design Consultants
- Construction Managers
- Equipment Manufacturers
- Material Suppliers

HAPI Calendar

Be on the lookout for upcoming workshops and events. Visit our website calendar for the most current listing of events. Scan the QR code at left.

January:

- HAPI Lunch Meeting

March:

- Understanding a Job Mix Formula Submittal workshop

April:

- HAPI Annual Paving Conference (Virtual)
- Best Practices for Asphalt Pavements workshops

July:

- HAPI Lunch Meeting
- HAPI Jeopardy

September:

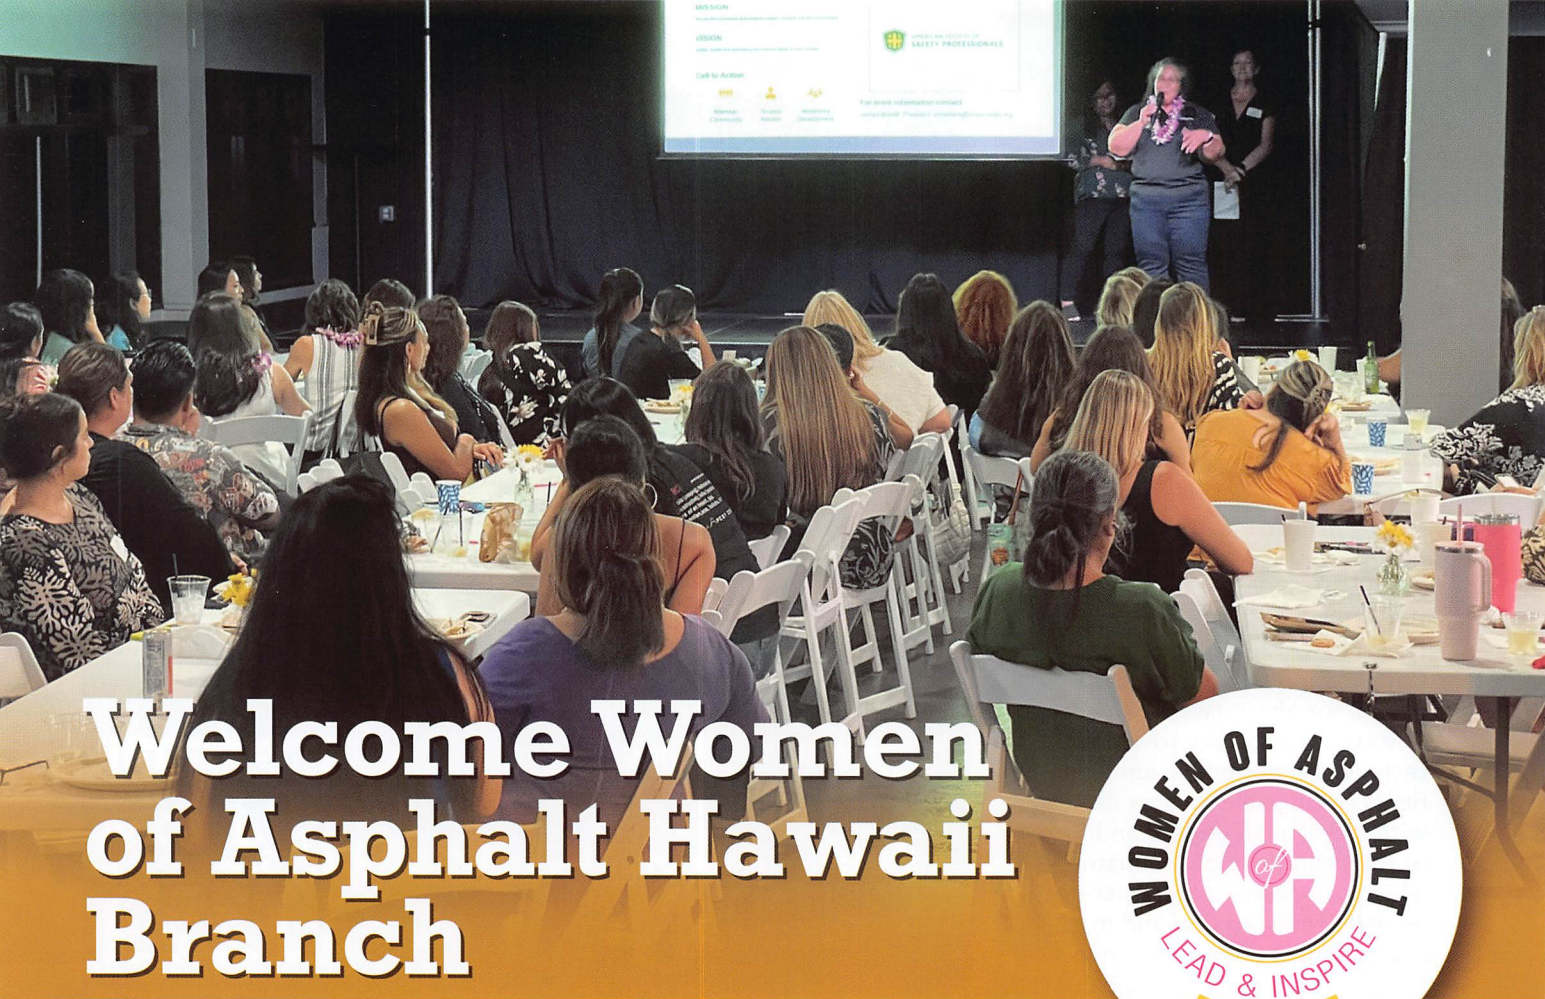

- Understanding a Job Mix Formula Submittal workshop

October:

- Use of Geosynthetics for Asphalt pavements workshops
- HAPI Scholarship applications due

December:

- HAPI Holiday Game

Welcome Women of Asphalt Hawaii Branch

We are excited to announce that a Hawai'i branch of the Women of Asphalt was established in September.

The mission of the Women of Asphalt is "empowering women in asphalt industry careers." The goals are:

- **AWARENESS** – Increasing awareness of opportunities in the industry.
- **KNOWLEDGE** – Elevating knowledge through education and resources.
- **COMMUNITY** – Providing platforms to create supportive relationships and growth.

Engineering, science, and construction have historically been male-dominated industries. Over the past few years, there has been an increase in the number of women moving into these fields. The asphalt industry is no exception. Although women do not represent a majority, they are beginning to represent more positions across the industry, from the field to the C-suite.

In the summer of 2017, Amy Miller; Ashley Batson, JD; Dr. Audrey Copeland, P.E.; Natasha Ozybko; and Tracie Schlich worked together as Founding Members to develop a platform to help recruit, educate and promote women in the asphalt community. This was truly a labor of love for each of these women. They bring unique industry experiences and perspectives to share with others in hopes of inspiring those already in the industry and attracting others looking to build a long-term career.

Consider becoming a member of Women of Asphalt – it is open to both women and men. By joining, you will be part of an organization which strives to advance and support women in the asphalt industry. There is NO COST to join. Members get invaluable benefits including connecting with women around the country working in vari-

ous positions within the asphalt community, mentoring programs, networking events within your state and at World of Asphalt, and employment leads.

The organization has come a long way since 2017. Currently there are just over 5,000 members, including men.

The formation of Women of Asphalt branches started in 2019. The goal of a branch is to establish a partnership between Women of Asphalt (WofA) and the State Asphalt Pavement Association (SAPA) to provide a mutually beneficial partnership. This partnership will provide value to the industry by advocating for women in the workforce.

The Hawaii Asphalt Paving Industry (HAPI) is Hawai'i's SAPA. Since the inception of branches in 2019, HAPI has been interested in establishing a branch. HAPI has been pursuing this goal with the support of the National Association of Women in Construction (NAWIC) Hawaii. Their most recent support did the trick.

On August 22, our Executive Director Jon Young, representing the WofA, was honored to be invited as one of fifteen presenters at the NAWIC Hawaii Empowered Connections event. He gave a three-minute presentation about the Women of Asphalt and the opportunity for a branch to get started in Hawai'i. At the end of the evening, he was approached by three women that work for Grace Pacific LLC saying they were excited about launching a branch in Hawai'i.

We have the following initial plans for the Hawai'i branch:

- Two meetings a year. The meetings will be conducted in conjunction with the HAPI lunch meetings for members and invited guests.
- A couple of in-person and/or virtual events. Our inaugural event was a tour of the asphalt lab at the HDOT facility on Likelike

Highway. The tour was followed by lunch, and the event ended with an overview of the WofA Hawai'i Branch. Thanks to Brandon Lima, Bituminous Mixture & Binder Supervising Technician, Bituminous Materials Section for being such a gracious host.

- There is a page on the HAPI website with information about upcoming events and a news blog. The Hawai'i branch is off to a fantastic start. Be sure to follow us in the monthly HAPI newsletter.

HAPI EDUCATIONAL RESOURCES

One of the missions of HAPI is to have continual learning for the contracting and design community. Below are resources that can be accessed by scanning the QR codes.

See the full website for more information, hawaiiiasphalt.org

ASPHALT GUIDE

HAPI Asphalt Pavement Guide is an interactive guide to everything about asphalt pavements and pavement treatments.

HAPI SHORTS

A virtual webinar on Wednesdays from 11:30 a.m. to 12:30 p.m. via a Zoom meeting.

TRAINING PROGRAM

The HAPI Training Program provides educational seminars and workshops that are regularly scheduled (i.e., once every year).

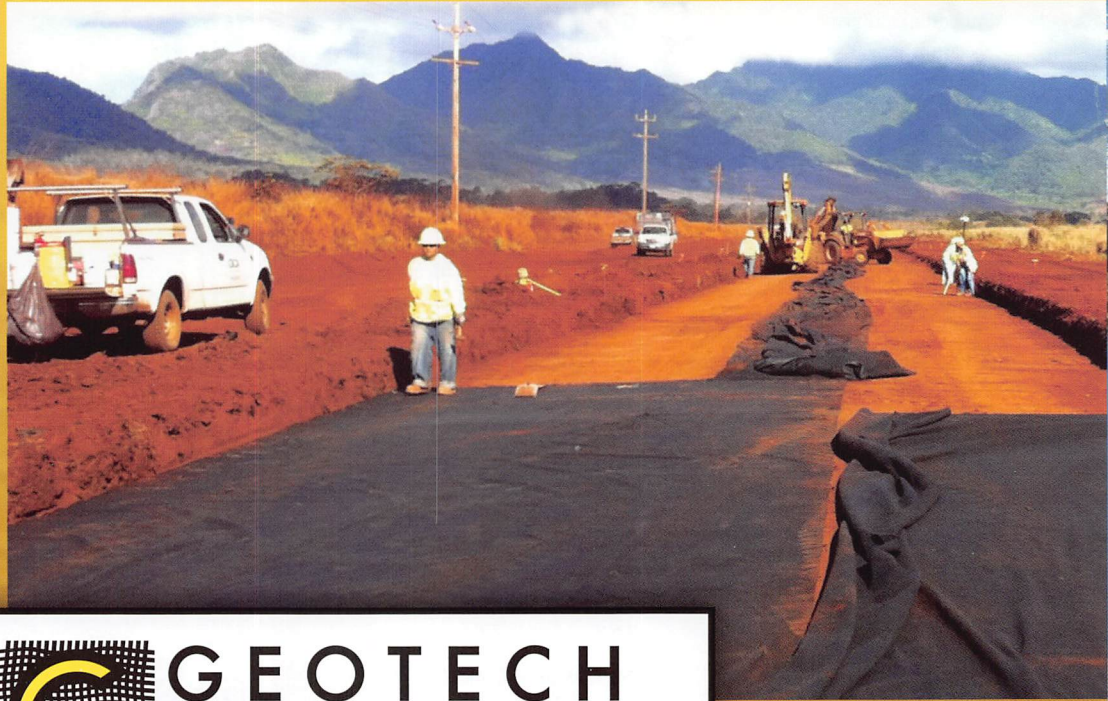

ONLINE LIBRARY

A library of articles and references about asphalt pavement and pavement treatments offer information about current developments within the industry.
